**SUBJECT:** Comptroller's Meeting - 26 April 1976

1. Attached for your information are copies of the va-graphs used during the Comptroller's Meeting on 26 April 1976, together with a copy of the Memorandum for the Record describing the discussion.

2. Within the next several days, we will be issuing revised allotments to reflect the actions agreed upon at the meeting. The revised allotments should be used as the base for the 1976 column of your 1978 Programs, now being prepared.

3. At the meeting we told you we had been informed that OMB had approved our request for a [redacted] to fund the [redacted] costs. We have now received the letter from OMB, which says:

"The enclosed apportionment schedule provides for [redacted]

[redacted]

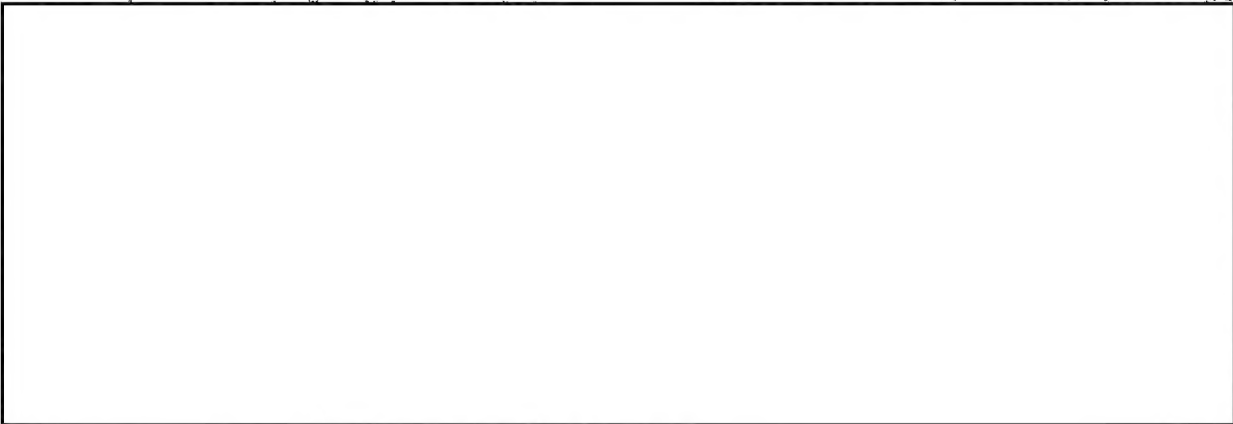

indicates that there are some lower priority items which could be reduced to offset CIA's remaining 1976 funding needs. This apportionment anticipates that additional requirements in the Fiscal Year 1976 will be financed through the reprogramming of available funds. We expect you to manage CIA funds in a way so as to anticipate to the extent possible such unfunded requirements and finance them through normal and prudent trade offs within the agency's budget for the remainder of 1976 and during the Transition Quarter. We would anticipate prior consultation with this office for any major reprogramming this may require."

4. The status of unobligated balances for Fiscal Year 1975 as of 26 April 1976 was reviewed, showing an unobligated balance as of 31 March 1976 of [REDACTED]. We have known requirements against this balance totalling [REDACTED] which will leave us a balance of [REDACTED] available for any additional contingencies which may arise.

Projections of savings in personal services funds range from [REDACTED]. There were [REDACTED] full-time permanent employees on duty at the end of March, and the Office of Personnel projects that [REDACTED] will be on duty at the end of the Fiscal Year, [REDACTED] ceiling.

9. Obligations against the cargo transportation account as of 31 March exceed the present allocation by about [REDACTED] with one full quarter of the Fiscal Year remaining. The total shortfall in this account is expected to reach [REDACTED] by the time all of the bills come in; many of the bills are not received until after the end of the Fiscal Year. The action to fund this account now is necessary to avoid a potential deficit in 1976 funds after the Fiscal Year has ended, but before the appropriation lapses two years hence. The situation arises

the Congress. It is clear from our experience in 1975 and 1976 that we can no longer rely confidently on the expectation that unobligated balances at the end of the year will be sufficient to cover the cargo transportation account, contract overruns, and other requirements for 1976 funds after the Fiscal Year has ended. Beginning in 1978 the Office of Logistics will budget fully for the cargo transportation account, but we will have the problem again in 1977 as we have it now in 1976.

10. The [redacted] is intended to cover [redacted] in [redacted] costs, plus [redacted] costs included on the list of hard requirements. In addition, it is intended to pay the bill for [redacted] through the end of the Fiscal Year, which has not yet been rendered by the [redacted] [redacted] total of hard requirements is reduced by [redacted] rather than the full amount of [redacted]

11. If we were to obtain [redacted] the ICS move and reduce the amount of the allotments to the Directorates by the full amount of the items they identified two months ago as deferrable to meet a 25 percent reduction in the pay raise, we would be able to fund the transportation account as well as absorb the actual 10 percent reduction in funds to be apportioned for the pay raise and thereby reduce the hard requirements to a remaining total of [redacted]. The Comptroller recommended that:

25X1A

- a. We request [redacted] to fund the ICS move.
- b. We require components to absorb their share of the 10 percent pay raise reduction from deferrables identified two months ago.
- c. The Comptroller issue revised allotments reducing Directorate totals by amounts equal to the balance of the deferrables [redacted]
- d. We authorize DDO to fund the [redacted] service from the [redacted] in non-personal savings identified as of 31 March.

25X1A

25X1A

X1A e. The DDA be authorized to fund hard requirements up to [redacted] in non-personal savings identified as of 31 March.

f. We authorize no further funding of any requirements, and ask that all remaining savings be preserved until funding the ICS move has been resolved.

X1A 12. During the discussion it was agreed that we should not seek [redacted] to fund the ICS move until the possibility of obtaining funding assistance from other agencies represented on the IC Staff has been explored with the Director and the CFI. Mr. Blake and Mr. Iams agreed to take this problem to the Director at the earliest opportunity.

X1A 13. During the discussion of the recommendation that Directorate totals be reduced by amounts equal to items previously identified as deferrable, it was recognized that the DDI has a special problem, requiring that he be granted some relief. The DDA, DDO, and DDS&T agreed to absorb an additional [redacted] each in order to reduce the DDI problem by [redacted]. Other recommendations were approved as offered.
